Re: Monitor Well Application #91-93-02MW  
Expiration Date: January 31, 1992  
Request for Permit Modification

Dear Mr. Bovee:

As per your December 10, 1991 correspondence, your request to drill one of the monitor wells to a depth great enough to encounter the Star Point-Blackhawk aquifer in the event it is at a depth in excess of 100 feet below the mine floor, is approved. All of the conditions of the original approval, and the approved modifications dated December 2, 1991 still apply.

Should you have other concerns, please feel free to contact me at your convenience. Your cooperation is appreciated.

Sincerely,

A handwritten signature in cursive script, reading "Mark P. Page".

Mark P. Page  
Regional Engineer
